PHILADELPHIA, Nov. 02, 2023 (GLOBE NEWSWIRE) -- Enviri Corporation (NYSE: NVRI) today reported third quarter 2023 results. On a U.S. GAAP ("GAAP") basis, the third quarter of 2023 diluted loss per share from continuing operations was \$0.11, after strategic expenses, an accounts receivable provision (linked to an idled steel mill) and other unusual items. Adjusted diluted earnings per share from continuing operations in the third quarter of 2023 was \$0.05. These figures compare with third quarter of 2022 GAAP diluted earnings per share from continuing operations of \$0.01 and adjusted diluted earnings per share from continuing operations of \$0.10.

GAAP operating income from continuing operations for the third quarter of 2023 was \$30 million. Adjusted EBITDA was \$79 million in the quarter, compared to the Company's previously provided guidance range of \$67 million to \$74 million.

"Enviri again delivered strong results in the third quarter, with both Clean Earth and Harsco Environmental realizing meaningful year-on-year earnings growth thanks to solid execution across the Company," said Enviri Chairman and CEO Nick Grasberger. "Our adjusted EBITDA margin in the third quarter was the highest since early 2020, reflecting strong operational and cost performance, successful improvement initiatives, and the continued recognition of our value-proposition by customers. We also made further progress on our ongoing objective to reduce leverage, supported by healthy cash flow generated by CE and HE.

"Looking ahead, our outlook for Q4 is positive and we're optimistic about further business growth into 2024. Our competitive position is strong and internal initiatives will continue to further solidify our strong foundation. Lastly, the sale process for our Rail business is ongoing, and we are confident that an agreement will be signed in the coming months."

Note: Adjusted diluted earnings (loss) per share from continuing operations and adjusted EBITDA details presented throughout this release are adjusted for unusual items; in addition, adjusted diluted earnings per share from continuing operations is adjusted for acquisition-related amortization expense. See below for definition of these non-GAAP measures.

Consolidated Third Quarter Operating Results

Consolidated revenues from continuing operations were \$525 million, an increase of 8 percent compared with the prior-year quarter. Both Harsco Environmental and Clean Earth realized an increase in revenues compared to the third quarter of 2022 due to higher services pricing and demand. Foreign currency translation positively impacted third quarter 2023 revenues by approximately \$5 million (1 percent), compared with the prior-year period.

The Company's GAAP operating income from continuing operations was \$30 million for the third quarter of 2023, compared with a GAAP operating income of \$30 million in the same quarter of 2022. Meanwhile, adjusted EBITDA totaled \$79 million in the third quarter of 2023 versus \$70 million in the third quarter of the prior year. Both Harsco Environmental and Clean Earth achieved higher adjusted EBITDA versus the comparable quarter of 2022.

Third Quarter Business Review

Harsco Environmental

(\$ in millions)	Q3 2023		Q3 2022	
Revenues	\$	286	\$	265
Operating income - GAAP	\$	18	\$	22
Adjusted EBITDA - Non GAAP	\$	54	\$	51
Adjusted EBITDA margin - Non GAAP		18.9%		19.1%

Harsco Environmental revenues totaled \$286 million in the third quarter of 2023, an increase of 8 percent compared with the prior-year quarter. This increase is attributable to higher services and products demand and price increases as well as the impact of FX translation. The segment's GAAP operating income and adjusted EBITDA totaled \$18 million and \$54 million, respectively, in the third quarter of 2023. These figures compare with GAAP operating income of \$22 million and adjusted EBITDA of \$51 million in the prior-year period. The year-on-year change in adjusted earnings reflects the impact of higher prices and demand as well as cost improvement initiatives.

Clean Earth

(\$ in millions)	Q3 2023		Q3 2022	
Revenues	\$	239	\$	222
Operating income (loss) - GAAP	\$	21	\$	17
Adjusted EBITDA - Non GAAP	\$	34	\$	28
Adjusted EBITDA margin - Non GAAP		14.2%		12.7%

Clean Earth revenues totaled \$239 million in the third quarter of 2023, a 7 percent increase over the prior-year quarter as a result of higher services pricing and increased volumes. The segment's GAAP operating income was \$21 million and adjusted EBITDA was \$34 million in the third quarter of 2023. These figures compare with GAAP operating income of \$17 million and adjusted EBITDA of \$28 million in the prior-year period. The year-on-year improvement in adjusted earnings reflects the above mentioned factors as well as efficiency initiatives, cost decreases and favorable business mix. As a result, Clean Earth's adjusted EBITDA margin increased to 14.2 percent in the third quarter of 2023 versus 12.7 percent in the comparable quarter of 2022.

Cash Flow

Net cash provided by operating activities was \$18 million in the third quarter of 2023, compared with net cash provided by operating activities of \$13 million in the prior-year period. Free cash flow (excluding Rail) was \$10 million in the third quarter of 2023, compared with \$(31) million in the prior-year period. The change in free cash flow compared with the prior-year quarter is attributable to higher cash earnings, working capital changes (net of the accounts receivable securitization benefit of \$25 million in the prior-year quarter) and lower net capital spending.

2023 Outlook

The Company has again increased its 2023 guidance for Adjusted EBITDA, reflecting the Company's positive third quarter performance and business momentum. In total, this change relative to the Company's prior outlook can be attributed to improved volumes and margin performance in Clean Earth as well as modestly lower Corporate spending.

For the full year 2023, key business drivers for each segment as well as other guidance details are as follows:

Harsco Environmental adjusted EBITDA is projected to be modestly above prior-year results. For the year, higher services pricing, restructuring benefits, site improvement initiatives and new contracts are expected to be partially offset by FX translation impacts and lower commodity prices.

Clean Earth adjusted EBITDA is expected to significantly increase versus 2022, as a result of higher services pricing and volumes as well as cost reduction and operational improvement actions, offsetting the impacts of continued labor-market and supply-chain (disposal) tightness.

Corporate spending is anticipated to be higher relative to the prior year due to the normalization of certain expenditures, including travel and higher planned incentive compensation.

Forward-Looking Statements

The nature of the Company's business, together with the number of countries in which it operates, subject it to changing economic, competitive, regulatory and technological conditions, risks and uncertainties. In accordance with the "safe harbor" provisions of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, the Company provides the following cautionary remarks regarding important factors that, among others, could cause future results to differ materially from the results contemplated by forward-looking statements, including the expectations and assumptions expressed or implied herein. Forward-looking statements contained herein could include, among other things, statements about management's confidence in and strategies for performance; expectations for new and existing products, technologies and opportunities; and expectations regarding growth, sales, cash flows, and earnings. Forward-looking statements can be identified by the use of such terms as "may," "could," "expect," "anticipate," "intend," "believe," "likely," "estimate," "outlook," "plan" or other comparable terms.

Factors that could cause actual results to differ, perhaps materially, from those implied by forward-looking statements include, but are not limited to: (1) changes in the worldwide business environment in which the Company operates, including changes in general economic conditions or health conditions; (2) changes in currency exchange rates, interest rates, commodity and fuel costs and capital costs; (3) changes in the performance of equity and bond markets that could affect, among other things, the valuation of the assets in the Company's pension plans and the accounting for pension assets, liabilities and expenses; (4) changes in governmental laws and regulations, including environmental, occupational health and safety, tax and import tariff standards and amounts; (5) market and competitive changes, including pricing pressures, market demand and acceptance for new products, services and technologies; (6) the Company's inability or failure to protect its intellectual property rights from infringement in one or more of the many countries in which the Company operates; (7) failure to effectively prevent, detect or recover from breaches in the Company's cybersecurity infrastructure; (8) unforeseen business disruptions in one or more of the many countries in which the Company operates due to political instability, civil disobedience, armed hostilities, public health issues or other calamities; (9) disruptions associated with labor disputes and increased operating costs associated with union organization; (10) the seasonal nature of the Company's business; (11) the Company's ability to successfully enter into new contracts and complete new acquisitions or strategic ventures in the time-frame contemplated, or at all; (12) the Company's ability to negotiate, complete, and integrate strategic transactions; (13) failure to complete a process for the divestiture of the Rail segment on satisfactory terms, or at all; (14) potential severe volatility in the capital or commodity markets; (15) failure to retain key management and employees; (16) the outcome of any disputes with customers, contractors and subcontractors; (17) the financial condition of the Company's customers, including the ability of customers (especially those that may be highly leveraged or have inadequate liquidity) to maintain their credit availability; (18) implementation of environmental remediation matters; (19) risk and uncertainty associated with intangible assets; (20) the risk that the Company may be unable to implement fully and successfully the expected incremental actions at the Clean Earth segment due to market conditions or otherwise and may fail to deliver the expected resulting benefits; and (21) other risk factors listed from time to time in the Company's SEC reports. A further discussion of these, along with other potential risk factors, can be found in Part II, Item 1A, "Risk Factors," of the Company's Quarterly Report on Form 10-Q for the period ended June 30, 2023, and Part I, Item 1A, "Risk Factors," of the Company's Annual Report on Form 10-K for the year ended December 31, 2022, which are filed with the Securities and Exchange Commission. The Company cautions that these factors may not be exhaustive and that many of these factors are beyond the Company's ability to control or predict. Accordingly, forward-looking statements should not be relied upon as a prediction of actual results. The Company undertakes no duty to update forward-looking statements except as may be required by law.

NON-GAAP MEASURES

Measurements of financial performance not calculated in accordance with GAAP should be considered as supplements to, and not substitutes for, performance measurements calculated or derived in accordance with GAAP. Any such measures are not necessarily comparable to other similarly-titled measurements employed by other companies. The most comparable GAAP measures are included within the definitions below.

Adjusted diluted earnings per share from continuing operations: Adjusted diluted earnings (loss) per share from continuing operations is a non-GAAP financial measure and consists of diluted earnings (loss) per share from continuing operations adjusted for unusual items and acquisition-related intangible asset amortization expense. It is important to note that such intangible assets contribute to revenue generation and that intangible asset amortization related to past acquisitions will recur in future periods until such intangible assets have been fully amortized. The Company's management believes Adjusted diluted earnings per share from continuing operations is useful to investors because it provides an overall understanding of the Company's historical and future prospects. Exclusion of unusual items permits evaluation and comparison of results for the Company's core business operations, and it is on this basis that management internally assesses the Company's performance. Exclusion of acquisition-related intangible asset amortization expense, the amount of which can vary by the timing, size and nature of the Company's acquisitions, facilitates more consistent internal comparisons of operating results over time between the Company's newly acquired and long-held businesses, and comparisons with both acquisitive and non-acquisitive peer companies.

Adjusted EBITDA: Adjusted EBITDA is a non-GAAP financial measure and consists of income (loss) from continuing operations adjusted to add back income tax expense; equity income of unconsolidated entities, net; net interest expense; defined benefit pension income (expense); facility fees and debt-related income (expense); and depreciation and amortization (excluding amortization of deferred financing costs); and excludes unusual items. Segment Adjusted EBITDA consists of operating income from continuing operations adjusted to exclude unusual items and add back depreciation and amortization (excluding amortization of deferred financing costs). The sum of the Segments' Adjusted EBITDA and Corporate Adjusted EBITDA equals consolidated Adjusted EBITDA. The Company's management believes Adjusted EBITDA is meaningful to investors because management reviews Adjusted EBITDA in assessing and evaluating performance.

Free cash flow: Free cash flow is a non-GAAP financial measure and consists of net cash provided (used) by operating activities less capital expenditures and expenditures for intangible assets; and plus capital expenditures for strategic ventures, total proceeds from sales of assets and certain transaction-related / debt-refinancing expenditures. The Company's management believes that Free cash flow is meaningful to investors because management reviews Free cash flow for planning and performance evaluation purposes. It is important to note that Free cash flow does not represent the total residual cash flow available for discretionary expenditures since other non-discretionary expenditures, such as mandatory debt service requirements and settlements of foreign currency forward exchange contracts, are not deducted from this measure. Free cash flow excludes the former Harsco Rail Segment since the segment is reported as discontinued operations. This presentation provides a basis for comparison of ongoing operations and prospects.
